S. L. Kawelo has been appointed by the Minister of the Interior to grant marriage licenses, and take acknowledgments to labor contracts for the district of Hilo. An item in the foreign news states that the U. S. S. Manhattan foundered at sea. The item is an error. The Manhattan returned

to port safe and sound November 10th, Mr. A. Marques has received by this mail Society of Lisbon, in recognition of his ef-

forts among the Portuguese here. There is one consolation if the heavy rains t week caused some of the events to be at week caused some of the events to be postposed, the planters will rejoice—it will

not postpone the growing of the cane. Complaints come in from all quarters about the manner in which the streets are lighted, or rather not lighted. Many streets were in total darkness part of last week.

Hon J. A. Comming leaves to-day for San Francisco by the Zeelandia. Mr. C. Bolte will not us Marshal for the balance of the Jubiles festivities during Mr. Cummins'

It is reported that a prominent Queen street firm has loaned the Government \$30,-000, which it is hoped will give the public some show of getting their little bills settled

The Athletic Sports, advertised for the 17th were postponed to Wednesday, Nov. 24. The Tableaux are also postponed for the same reason to Saturday evening, Nov. 27, at the Moste Hall.

It is rumored that an order was issued forbidding the same running their faces for drinks at the saloons, excepting one, and at that there was a limit not exceeding one month's pay!

The new Inter-Island steamer sailed from Port Ludlow, on the Sound, for San Fran-cisco, Nov. 7th, and after receiving her boiler and machinery, will sail for this port early in December.

The "Hawatian Financial Agent," Colonel G. W. Macfariane, returned in the Zealandia. It is not announced yet when he will again sail for 'Frisco. George seems to have a "fat racket" on the loan business.

It was announced that a collection in aid of the Charleston sufferers would be taken up at the Lyceum Sunday last. Subsequently this was changed to Thursday, Thanksgiving Day, Nov. 25th, when it is hoped the benevo-lent will cheerfully contribute to alleviate the distress of the sufferers by the recent earth-

During the Zealandia's absence, she has received new boilers and other substantial repairs, making her one of the finest and staunchest steamers affont on the the Pacific. It is rumored that on her return to San Francisco, the Zealandia will be placed on the Australian route in the place of the steamer

Last week Luning, who is a "jokist" at times, was safely delivered of a stopendous conundrum in front of W. S. Luce's store, which not only astonished himself but his friends, and for a time the worst results were apprehended for Luning by those present. Fortunately restorations were at hand and all danger was averted. Luning is all right

The Kabulai Railroad Co., at a meeting held in this city on the 20th inst., elected the following officers to serve during the ensuing year: S. G. Wilder, President; W. C. Wilder, Treasurer: G. P. Wilder, Secretary. At the same time and place the Hawaiian Railroad Co. also elected the following officers to serve for the year: S. G. Wilder, President; W. C. Wilder, Treasurer; C. G. Wight, Sec-

Our Island boys abroad always manage to make a record for themselves. George Carter, who is now at Yale is highly spoken of by the Eastern papers as a foot-ball player and athlete. The Tribing says: "Carter is very strong and active and possess any amount of bull dog courage." Another paper speaks of him as one "who can stand grief like a major and will allow an opposing team to walk all over him and yet give no sign of annoyance."

On Thursday night, the cabin of the steamer Waimanalo was broken into; the rascals are supposed to be some drunken sailors in search of liquor. The engineer, who arrived early in the morning, discovered the cabin of the steamer to be on fire. A few buckets of water speedily extinguished the flames. Matches were found lying about the cabin. Some clothing and money had disappeared. The damage to the steamer is

The steamers of the Australian line in future will leave Sydney on Wednesdays instead of Thursdays. This is done to enable the mail to reach New York in time for the fast Atlantic steamers sailing on Saturdays, from that city for Liverpool. The mails from London will also be dispatched twentyfour hours earlier than formerly. The steamers may be looked for here on Fridays instead of Saturdays from both directions.

Saturday morning, Nov. 20, a notice was issued from the Bureau of Immigration ask-During the late rain, there were twelve and ing for applications from planters and others for Portuguese laborers to arrive here from Madeira in January and February. The notice was issued only about five hours before the time appointed to receive the applications. Planters on the other Islands by this short notice were practically barred from se-curing any portion of these latorers. Was this move made to make a corner, and be within the pale of the law, or is there a labor

> On Sanday the Esplanade was a perfect sea of mud and slush. Pedestrianism was out of the question in that section. The Australia's passengers upon getting outside of the wharf gate, immediately returned on seeing what they had to face. There is no use in filling in this slough; let those who can't afford to hire a carriage take a walk in some other locality where they won't have to swim for it. What the country really needs and is suffering for is an army and navyhang the wud, who cares for it?

On Sunday the two large steamers Australia and Zealandia, were in port here for the first time together since they commenced running, ten years ago. Now they are both sailing under the Hawaiian flag, and are so nearly alike in their appearance and appointments that it would be necessary for a person to look at the names on the stern in order to tell which steamer they are aboard They are both fine substantial steamers and bid fair to last many years under their new flag. Heretofore they have been considered lucky ships, never losing a trip or sustaining an accident during all that time.

Marriage of W. G. Irwin.

Mr. W. G. Irwin, of the firm of W. G. Irwin & Co. of this city, was married in San Francisco on Tuesday evening, Nov. 9, to Mrs. B. Holladay of that city. Mr. and Mrs. Irwin left the following day on a bridal tour, visiting notable places in California, and may be looked for in this city about the holidays.

Petroleum as Fuel-

We clip the following from the San Fran-isco Weelly Bulletin of November 10: "The ferry-boats Solano, Pledmont and Julia again burn coal, the petroleum experi-ment having been abandoned. The Pacific Rolling Mill Company has also returned to the use of coal. The petroleum plan worked well, but after a short trial was found to be so expensive that it had to be abandoned. It is asserted by engineers that no iron can withstand the flames from petroleum, that steel cannot stand it much better, and that Hon. H. A. Widemann, Miss Widemann and C. Widemann returned by the Zealandia from a visit to the Fatherland.

A Big Mortgage Case.

J. D. Spreckies & Bro., of San Francisco, filed a bill in equity against George Macfarlane, in the Supreme Court on Satur-day, Nov. 30th, before the Chief Justice, for the foreclosure of a mortgage amounting, with accrued interest, to \$47,377.77. An enjunction was issued enjoining the defendant from disposing of the property in question until the further order of the Court. Tuesday, Dec. 7th, was set for return day, and endorsed its allowance to the issuance of the

The Firemen at Their Rooms.

After the torchlight procession on Tuesday night, the "fire laddles" retired to their re-ception halls, and enjoyed themselves. No. 2 had a fine lands spread by their steward. The boys were in fine trim to do justice to the good things placed before them, which they did with a vim, after which a jolly good time followed. Pacific Hose "boys" had a neat layout of everything that was tempting, to which they did ample justice. After the lunch, singing and speech making followed, in which all took a hand. Mr. Ordenstein, who is an enthusiastic fireman, delivered a lengthy address, and was loudly applauded in his remarks, and took his seat amidst a perfect tornado of cheering.

The Planters' Monthly.

The first number under the new manage ment is to hand to-day, and Mr. Whitney, the new Editor, presents his readers with 48 pages of matter. Mr. Whitney in a modest editorial presents himself to the subscribers, and shows on what lines he intends to work and what help he expects from the planters themselves. The bulk of the magazine is taken up with the minutes of the annual meeting and the reports of the various committees. Mr. Young supplies an interesting extract relative to a new method of filtering, to which the especial attention of sugar manufacturers is called. Some interesting correspondence relative to sugar matters completes the number. The high standard of the magazine is evidently going to be thoroughly maintained.

A Fire Sunday Night.

On Sunday night an alarm of fire was sounded first from No. 4 Engine house, and afterward from the Bell Tower, for a fire in a cottage a few doors above the first bridge, Nunanu street. The fire being altogether confined to the inside of the building, many supposed it was a false alarm. Officer C. B. supposed it was a raise alarm. Omore C. B. Reynolds and the neighbors upon hearing the alarm were quickly on the ground and found the house closed up and the occupants Mr. and Mrs. Hugh McMillan, away from home. The fire was raging fircely in the bedroom where it had apparently started, supposed to be from the explosion of a lamp which had been left huming. Water from a which had been left burning. Water from a small hose was immediately turned on, but this was inadequate, and the fire reaching the ceiling, the attic was soon on fire, and shortly after the flames burst forth from the ridge of the roof. By this time No. 2 Volunteer boys with their hose got to work, quick ly followed by Pacific Hose with their apparatus, and No. 4 Engine also with steam up. All got to work, and soon the flames from the roof disappeared. No. 2 engine also was early on the ground, followed by No. 1, steamer, the former get-ting water from the School street hydrant. Through their united efforts the fire was soon under control, and the building saved from total destruction. No. 1's services were not required. The most of Mr. Macmillan's furniture, which was quite valuable, was par-tially removed and damaged by the torrents of water thrown into the building and the rain and mud outside. The damage to the building wilt probably amount to close on to \$1,000, and is owned by James Campbell Esq. It is stated that the furniture is fully Chief Engineer Wilson and Assistants were

early on the ground, and directed the work ing of the engines, placing hose, etc. It is bortunate the flames were confined to the building where originated, as the others sur-rounding were all wooden ones, and there is no telling where it might have ended. The gallant firemen deserve great praise for the thorough and energetic manner in which they successfully handled this fire.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other ano-dyne expectorant so good as Aven's Cherny Provoral. It is invaluable for discuses of the throat and longs." The same opinion is expressed by the well-Laown Dr. L. J. Addison, of Chicago,

Ill., who says :-"I have never found, in thirty-five years of commons study and practice of medicine, any proportion of so great value as AYER'S CHERRY PROUND, for treatment of discases of the three and imags. It not only breaks up colds and three severe coughs, but is more effective mounting else to relieving even the most seriors bronchial and pulmonary affections.

AYER'S Cherry Pectoral

Is not a new claimant for popular confi-dence, but a medicine which is to-day saving the lives of the third generation saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a bousehold in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or hing disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic Bronchitis, Larnygitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AVER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough. These are all plain facts, which can be verified by anybody, and should be re-membered by everybody.
